Minimum System Requirements to Run PCDART

- Windows PC (300 MHz minimum; recommend 800 MHz for herds over 300 cows)
- 64 MB RAM (256 MB for XP)
- 2 GB Hard Drive
- CD-ROM Drive
- 3.5" Floppy Drive or "Jump Drive" (required to exchange data files with Technicians/Producer)*
- Backup (Floppy, CD-RW, Tape, Zip Drive or USB Drive)
- 56 K Modem or Internet Access
- Windows 98, ME, NT, 2000, XP Home or XP Professional
- Monitor capable of displaying resolution of 800 x 600 or above

Contact your Service Affiliate for drive options

NOTE: PCDART is programmed at 800x600 resolution to allow the display of additional data and graphic elements on the screen. Monitors with low resolution (640x480) have bigger dots and may display blurry images. A newer monitor is recommended if blurry images are displayed on an old monitor.
